Entirely Premature.

It appears that some of our contemporaries know more about Excelsior Lodge affairs than its own members. The BULLETIN is assured that all statements to the effect that a new building will be erected on the corner of Fort and King streets and the site of the present Odd Fellows hall are entirely premature. Nothing has been decided, no plans adopted nor any other move made towards building, and none will be until the arrangements with the Government for the land needed for the widening of Fort street are consummated. These have progressed as far as the determination of the amount of damages, but can go no further until the next Legislature makes a new appropriation, the present one having been exhausted for Vineyard street and other improvements.

Singing For Health.

The time will soon come when singing will be regarded as one of the great helps to physicians in lung diseases in the incipient state. Almost every branch of gymnastics is employed in one way or another by the doctors, but the simple and natural function of singing has not yet received its full meed of praise. In Italy some years ago statistics were taken which proved that the vocal artists were especially long lived and healthy under normal circumstances, while of the brass instrumentalists it was discovered that consumption never claimed a victim among them. Those who have a tendency toward consumption should take easy vocal exercises, no matter how thin and weak their voices may seem to be. They will find a result at times far surpassing any relief afforded by medicine. Vocal practice in moderation is the best system of general gymnastics that can be imagined, many muscles being brought into play that would scarcely be suspected of action in connection with so simple a matter as tone production. Therefore, apart from all art consideration, merely as a matter of health, one can earnestly say to the healthy, "Sing that you may remain so," and to the weakly, "Sing that you may become strong."—Echo.

Fashion Echoes.

This season is notable for the revival of old time styles in dress.

Everything that savors of Russian in jewelry and silverware is now in fashion. Hence the prevalence of Russian enamel and uncut jewels.

Handsome evening gowns display multicolored embroidery, which owes its many hues to mock jewels.

The "regal" is nothing more or less than the old time sunshade, one of many revivals.

The variety in stock cravats is simply bewildering.

Creme de chine is again in high favor.

The pointed toed shoe has lost its prestige, and a round one seems to take its place.
